Software Engineering Graduate | Full stack dev, Web & Mobile Development | Project Management
Jeddah, Saudi Arabia | +966 56 606 1099 | sarahbahashwan1@hotmail.com | [sarah-bahashwan](https://www.linkedin.com/in/sarah-bahashwan) |

PROFESSIONAL SUMMARY

Software Engineering graduate from the University of Jeddah (GPA 4.81/5.0), graduating June 2026. Hands-on experience delivering full-cycle software projects, including an AI-powered mobile application for Hajj pilgrim safety, and a PMO internship at Saudi Arabian Airlines (Saudia). Open to software engineering and project management roles.

EDUCATION

- Bachelor of Science in Software Engineering** : University of Jeddah Sep 2021 – Jun 2026
GPA: 4.81 / 5.00 College of Computer Science & Engineering
- Advanced English Programme** : LILA* English School, Liverpool, UK Jun – Aug 2024
- High School Diploma** : Gifted School, King Abdulaziz Foundation 2021
GPA: 98.10% Selective admission program for academically gifted students.

PROFESSIONAL EXPERIENCE

- Project Management Office (PMO) Intern** : Saudi Arabian Airlines (Saudia) – IT Division Jun 2025 – Jul 2025
- Completed a 6-week PMO summer training program within Saudia's IT Division; awarded a certificate of outstanding performance
 - Supported project planning, scheduling, and documentation for active IT projects, collaborating with development teams and contributing to status reports for senior stakeholders.
- Advanced Cybersecurity Trainee** : KAUST Academy (King Abdullah University of Science & Technology) 2023 – 2024
- Selected as one of 100 trainees from over 2,000 national applicants for an advanced program covering offensive and defensive security, network security, and ethical hacking.

SELECTED PROJECTS

- Noor Al-Tariq (AI-Powered Pilgrim Assistance Application)** : Senior Project I & II 2025 – 2026
- Co-developed a mobile application supporting Hajj and Umrah pilgrims through AI-driven SOS classification, crowd density monitoring, an Islamic guidance chatbot, map navigation, and real-time Arabic-English translation.
 - Built end-to-end across mobile, cloud, and ML stacks using Flutter, Firebase/Firestore, Python (scikit-learn, Flask), Sentence-BERT, and the Google Maps API; followed Agile Scrum with IEEE 1012 verification & validation practices.
- JetSetGo (Comprehensive Airport Services Mobile Application)** : Software Process Models Course Project Fall 2024
- Designed an end-to-end airport companion application featuring real-time flight tracking, luggage management, lounge and parking reservations, an interactive 3D terminal map, and a personal companion service for minors, elderly, and travellers with special needs. Tools: JIRA, GitHub, Lucidchart, Slack.
- Smart Attendance System (RFID / Biometric / Camera)** : Software Project Management Course Project Spring 2024
- Authored a full project-management documentation suite for an automated attendance solution (business case, project charter, WBS, Gantt schedule, cost baseline, stakeholder analysis, and risk register) and led the system analysis stream.

TECHNICAL SKILLS

Programming & Development: Python, Java, C++, JavaScript, Dart, SQL, HTML/CSS, Flutter, PHP, MySQL, REST APIs, scikit-learn, Flask.

Languages: Arabic (Native), English (Advanced — LILA*, Liverpool UK, 2024).

CERTIFICATIONS & ACHIEVEMENTS

- EC-Council Certified Ethical Hacker (CEH) : Ministry of Communications & Information Technology, Saudi Arabia.
- Certificate of Outstanding Performance : Saudi Arabian Airlines (Saudia), PMO Summer Training Program, 2025.
- Virtual Work Experience in Data Science & Artificial Intelligence — Microsoft.
